

Company Profile

With a client base of local authorities, the Department of Transport and Main Roads, Queensland Health and numerous private clients, GBA Consulting Engineers provides first-class sustainable engineering solutions to communities in an area which exceeds 500,000 km². GBA achieve this by working closely with our clients, guiding them through every stage of the project cycle. At GBA we help our clients to develop the scope of works for their project, enabling them to readily understand and achieve the engineering project outcomes they desire. Our proactive approach to continual improvement, delivery refinement to meet client needs and actively seeking alternative technologies and methodologies enables us to deliver professional and sustainable services.

GBA Consulting Engineers are currently seeking the services of a Civil Designer in our Rockhampton office. The requirements for the position are outlined below.

Position Title: : **Civil Designer**

Position Type: : **Full Time**

Location: : **2/74 Victoria Parade, Rockhampton**

1. Main Duties/Responsibilities

The Civil Designer works within a collaborative and supportive team environment to provide the organisation with design, drafting and systems support.

You will be exposed to a great variety of projects and career progression opportunities whilst working alongside other designers, engineers, technical and administration staff and partners.

- Ability to work in a small team in the design of roads, urban water and wastewater, airports and rural infrastructure.
- Design projects to appropriate standards and building codes and provide design and technical advice in pursuit of day to day provision of services to clients.
- Interpret civil engineering drawings and building plans.
- Prepare cost estimates for projects.
- To provide leadership and support to foster teamwork within and to contribute as an effective member of the engineering team.
- Interpret maps and land surveys to note land grading, nearby structures.
- Maintain electronic and hard copy filing systems using designated protocols.
- Other duties as directed by the principals and other senior staff.

2. Qualifications

- A Bachelor of Technology or an Associate Diploma or equivalent.
- Current Queensland 'C' Class Driver's License.

3. Experience

- Experience in road design.
- 12D experience is essential.
- Experience in a similar role is desirable.
- Experience in Local Government operations preferably in Queensland.
- A developing level of practical management skills, with the emphasis in the areas of Local Government services such as roadworks, water supply and waste water options.
- A developing understanding of the Queensland Department of Transport and Main Roads design requirements.
- A sound knowledge of contract and tender documents.
- A sound knowledge of infrastructure services provided to Local Government including rural and urban roadworks design and construction, water and wastewater design and construction.

4. Skills

- A developing skill in dealing with technical matters when required.
- To be able to work within a team and alone on projects.
- Prioritisation and organisational skills.
- Strong communication skills.
- Multitasking capability.
- Professionalism in the workplace.
- Ability to relate to clients/colleagues and their families from diverse cultural and socio-economic backgrounds.

5. Performance Goals

GBA Consulting Engineers ensures employees work are to be carried out to meet WHS obligations and responsibilities as detailed in GBA's policies and procedures and all other relevant legislative requirements and standards including the Council polices and local laws.

Employees are to exercise due diligence in acquiring and updating knowledge to maintain compliance with all GBA WHS systems, risk management processes and legislation.

All persons employed by GBA are required to contribute to continuous improvement of service delivery, operational guidelines and organisation policies and procedures ensuring that any quality requirements related to work undertaken are met.

6. Accountability

- Report to the Partners of the firm through appropriate supervisors.
- Coordinate with appropriate supervisors to address the needs of clients.
- Liaise with the clients' personnel as required to develop and implement appropriate solutions and advice

7. Remuneration

Remuneration will be dependent on experience. In addition, GBA provides:

- 12.5% superannuation contribution
- Long service leave
- 4 weeks leave (inclusive of leave loading at 17.5%)
