

Company Profile

With a client base of local authorities, the Department of Transport and Main Roads, Queensland Health and numerous private clients, GBA Consulting Engineers provides first-class sustainable engineering solutions to communities in an area which exceeds 500,000 km². GBA achieve this by working closely with our clients, guiding them through every stage of the project cycle. At GBA we help our clients to develop the scope of works for their project, enabling them to readily understand and achieve the engineering project outcomes they desire. Our proactive approach to continual improvement, delivery refinement to meet client needs and actively seeking alternative technologies and methodologies enables us to deliver professional and sustainable services.

GBA Consulting Engineers are currently seeking the services of Senior Civil Engineers across all three office locations. The requirements for the position are outlined below.

Position Title: Senior Civil Engineer

Position Type: Full Time

Location: Barcaldine, Emerald and Rockhampton

1. Main Duties/Responsibilities

The Senior Civil Engineer works within a collaborative and supportive team environment to provide the organisation with central engineering and systems support.

You will be exposed to a great variety of projects and career progression opportunities whilst working alongside other engineers, designers, technical and administration staff and partners.

- Provide engineering and technical advice and manage projects in the pursuit of day-to-day provision of services to clients.
- To undertake the design, supervision and management of projects in Central and Western Queensland.
- To provide leadership and support to foster teamwork and to contribute as an effective member of the engineering team.
- Compile and submit funding applications to local, state and federal agencies, verifying that projects comply with various regulations.
- Prepare cost estimates for projects to determine whether they are economically feasibility.
- Manage the repair, maintenance and replacement of public and private infrastructure.
- Inspect, evaluate and monitor projects to ensure they meet relevant standards and are progressing accordingly.
- Maintain electronic and hard copy filing systems using designated protocols.
- Other duties as directed by the principals and other senior staff.

2. Qualifications

- A degree in Civil Engineering
- Registered Professional Engineer Queensland (RPEQ) or ability to obtain RPEQ
- Current Queensland C Class Driver's License

3. Experience

- A minimum of 5 years' experience as a Civil Engineer.
